#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 07 February 2005.  
 2a) This action is FINAL.                    2b) This action is non-final.  
 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

***Election/Restrictions***

1. As per Applicant's instructions as filed on 2/07/05, claims 1-40 have been canceled, claims 41-68, 70-81, 83-84, and 88-95 have been previously added, claims 69, 82, and 85-87 have been amended, and claims 96-98 have been newly added.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 41-68, drawn to an enhanced VSB transmitter and a method for transmitting main data and supplemental data, classified in class 455, subclass 47; and
  - II. Claims 69-98, drawn to a VSB data format and a method of formatting a VSB data, classified in class 375 subclasses 240.26.
3. Inventions of Groups I and II as represented above are directed to related fields of endeavor. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed meet all of the above distinct criteria(s). Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.

These inventions are independent or distinct for the reasons given above and there would be an extra burden on the Examiner if restriction is not required because:

- A) the inventions have acquired a separate status in the art in view of their different classification as well as their recognized divergent subject matter;
- B) a search for the examination of all of the pending claims does indeed create undue burden on the Office by virtue of two distinct Groups as discussed above;

C) the prior art searching of different classifications and a prosecution of all of the pending claims as above clearly would be an additional burden based on the two distinct (independent) Groups and the limited amount of time allocated/given for the examination process and/or prosecution of each application; and

D) a reasonable search for one Group does not encompass/cover other Group corresponding to other set of claims.

Therefore, in view of all of the reasons as discussed above, restriction for Examination purposes as indicated is proper.
